WORK EXPERIENCE

Software Engineer / React Developer — QuikOne
Jan 2026 – Present | Chennai, Tamil Nadu, India | On-site
- Build responsive and scalable web applications using React.js, JavaScript, HTML and CSS.
- Create reusable UI components with Material UI and integrate REST APIs to deliver user-friendly interfaces.
- Work with React.js, Next.js and related frontend technologies in a collaborative environment.

React JS Developer Intern — Smackcoders
Apr 2025 – Oct 2025 | Tirunelveli, Tamil Nadu, India | Hybrid
- Developed responsive web applications using HTML, CSS, JavaScript and React.js.
- Designed PostgreSQL database solutions and integrated REST APIs for reliable data communication.
- Collaborated on eCommerce, student management and chatbot applications, focusing on clean, scalable code and performance.

PROJECTS

MindChampS LMS (Learning Management System)
- Built a full-stack Learning Management System to manage students, instructors, surveys, schedules and reports using React.js, Node.js, Express.js, MongoDB and Redux Toolkit.
- Implemented student/instructor management, timetable scheduling, surveys and feedback, reports/dashboard, role-based authentication and responsive UI.

Timesheet Management System
- Developed a web application for tracking employee working hours and attendance using React.js, Node.js, Express.js and PostgreSQL.
- Implemented timesheet management, employee/instructor tracking, schedule-based entries, reports/status tracking and an approval workflow.

Chatbot Application
- Built a responsive chatbot UI using React.js, TypeScript and Material UI, with role-based message alignment and real-time interaction.
- Integrated a backend with session-based chat history and JWT authentication.
